

SVHC / Reach 224 Declaration

September 1st, 2022

HBControls, Inc. has conducted a survey of its manufacturing subcontractors and component suppliers to assess the impact of “Substances of Very High Concern” (i.e., SVHC) on its products. Based upon this assessment, HBControls, Inc. hereby certifies that the products we manufacture or resell do not contain any of the REACH Substances of Very High Concern (SVHC), as specified in the Candidate List of Substances published on June 10th, 2022, by ECHA (European Chemical Agency) above the 0.1% (w/w) threshold.

More information can be found at <http://echa.europa.eu/candidate-list-table>.

Products covered by this declaration include:

- All standard power controllers / heat sink assemblies
- All standard TP / LPC / TPLP series proportional control boards and assemblies
- PS series power supplies and -138 / -138A series transducers
- SSRMAN, SSRMON, and SSRTC series control and monitoring cards (formerly marketed by NuWave Technologies)
- RCSB series snubber boards

The above statement is based on information provided by our suppliers and is accurate to the best of our knowledge.

A handwritten signature in black ink that reads 'Jonathan Preu'. The signature is fluid and cursive, with a long horizontal stroke at the end.

Jonathan Preu
